

Bed Doubler® Systems

Twin beds or a king? Now you can say “yes” to guest requests for either size bed with the **Create A King®** bed doubler that quickly and safely combines two beds when a larger bed is needed. It’s fast, easy, and so comfortable that guests never know it’s on the bed.

For pillow top and more plush mattresses, extra fill is sometimes needed in the center area. The **Hospitality Plush** bed doubler solves that problem with a removable filler pad that attaches under the sheepskin.

Bed Doublers Are Ideal For:

- Providing A Larger Bed At A Moment’s Notice
- Older Hotels/Inns That Cannot Accommodate A King Size Bed Due To Stairs Or Elevators
- Resorts, Timeshares And Vacation Rentals That Have Twin Beds In One Or More Rooms

Create A King®

The 8” wide polyester sheepskin (100% washable) pads the center area where beds join. Adjustable 2” side belt holds the mattresses securely together. Fits all Twin mattresses including Twin XL.

Hospitality Plush

Designed specifically for more plush or pillow-top Twin mattresses whose middle requires extra padding where beds join. Top poly sheepskin is 12” wide and comes with a removable extra filler pad that attaches easily underneath. An adjustable 4” wide belt secures the mattress firmly in place. Fits all mattresses including Twin XL.

Double Doubler®

Combines any 2 full size beds up to 80” in length to form a honeymoon king.
